DRY COMEDY WET ROCK 'N ROLL

## who we are

LOST MOON RADIO is a live comedy and music group based in Los Angeles. They have performed at San Francisco Sketchfest, UCB Los Angeles, KPCC's Crawford Family Forum, South Coast Rep, Good Day LA, and at the Hollywood Fringe Festival, winning the top comedy prize in 2011 and 2012. Lost Moon Radio has produced three comedy albums and a podcast. Their sketch show Passive Aggressive History aired on truTV last year.

## our live show

LOST MOON RADIO's signature live show is a comedy and music variety show performed in the style of a radio play. Audiences watch as iconoclastic disc jockey Jupiter Jack spins tracks on a theme during his late-night radio program. When Jack "plays" a track, the audience sees a sketch or song performed live by onstage actors and a four-piece band. Part rock concert, part comedy show, part narrative journey, Lost Moon Radio is a comedy show like no other.
